## DEPARTMENT OF FISH AND GAME

Wildlife Programs Branch

### **2004 Annual Bear Take Report**

#### Summary:

The 2004 black bear hunting season closed according to the regulations on December 26, 2004. The recent regulation change that increased the tag quota from 1,500 to 1,700 bears harvested has made this the fourth time in ten years that the season has run to its designated closure date rather than closing when the Department has received its tag quota. The License and Revenue Branch has reported that a total of 21,000 bear tags were sold in 2004 with 20,913 resident and 177 non-resident tags. Non-resident tag sales decreased again in 2004 and now compromise less than one percent of tag sales. A total of 1,848 black bears were reported taken this year and overall hunter success was 8.8%, up a point from 2003.

Once again, success rates for the different hunting methods varied only marginally in 2004 compared to previous years (see Table 3). Hunters with trailing hounds took 968 bears, (52.4%), which is up 3% from 2003 but still representing about half the kills. Hunters took 547 bears (29.6%) while they were deer hunting, a slight decrease, percentage-wise, from last year. Archery hunters accounted for only 109 kills, up about a percent from last year, while the number of hunters using guides increased slightly to 6.2% (114 kills).

Ninety-five percent of successful hunters and 3.7% of unsuccessful bear hunters indicated the number of days they spent hunting on their report cards. Successful hunters spent an average of 4.1 days and unsuccessful hunters an average of 8.1 days hunting bear, just slightly different than 2003. A total of 379 (20.5%) successful bear hunters said they had taken bears on private land, this is up 7% from last year, which means more bears are being taken on public lands. Preliminary numbers, as of 03/08/2005 show that premolar teeth were collected from 1,492 (80.7%) of the bears harvested.

Again in 2004 the general bear season and deer season overlapped in the A, B, C, D, and some of the X zones (see Table 4). Zones X-1 through X-7b opened on October 2nd. During the general deer season hunters were limited to one dog per hunter. Regulation changes in 2002 continue to be the primary factor affecting tag sales, season closure, and changes in the proportions of bear take by hunting method.

#### Seasons:

Archery Bear Season: Opened August 21, closed September 12, 2004. General Bear Season: Opened (Table 4), closed December 26, 2004.
